

Dataliner Duradrill punksvetsborr

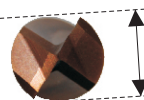

The Dataliner drills have been designed to drill ultra high strength steels. These special tungsten carbide drills have a high end coating which works perfect on welding spots.

Technical specs.:

- hardness : 3100 HV (Vickers)
- heat protection : 1100°C
- performance : 80 - 120 Spotweld drills

The drills can be used afterwards for 1000 drills on standard sheet metal.
